

Policy Compass Walkthrough Videos

In the [Policy Compass YouTube channel](#), users may now find a set of walkthrough videos.

In a short time frame, these videos aim to present concisely and effectively the main functionalities of the Policy Compass platform, guiding end users on how to use the various platform functionalities.

Policy Compass at the Data for Policy Conference

The [Data for Policy conference](#) is an independent initiative to promote interdisciplinary and cross-sectoral discussion between all stakeholders with interest in potentials of Data Science research to enhance government operations and policy-making.

Policy Compass partners NTUA and CCC presented a scientific publication titled "Policy Compass: Prosperity Indicator-based Accountable Policy Analysis and Evaluation via Open Data Exploitation"

Policy Compass in the Computational Models of Argument (COMMA) Conference!

The [International Conference on Computational Models of Argument \(COMMA\)](#) is a regular forum for presentation and exchange of the latest research results concerning theory and applications of computational argumentation.

A publication titled "Formalizing Balancing Arguments" was

presented by Policy Compass partner Fraunhofer FOKUS, accompanied by a presentation of a demo prepared through the Policy Compass platform.

Policy Compass at Expertise, evidence and argumentation in the context of public policy-making workshop!

Evidence-based policy-making rests on three pillars that correspond to interlocking phases of the policy-making process. Addressing the relation between evidence, explanation/prediction, and argumentation, the workshop shed light on how evidence is selected, assessed and presented to support a policy, thus combining communicative, scientific, and political considerations.

Policy Compass partner Fraunhofer FOKUS, represented by Tom Gordon, gave a presentation on the new version of Carneades model of structured argumentation (Version 4), developed in the context of Policy Compass, with better support for cumulative arguments, practical reasoning and multi-criteria decision analysis, applying the insights above, together with web-based software tools using this model to support argument construction, evaluation and visualisation tasks.

Policy Compass at OW2con'16!

Held for the eighth consecutive year, [OW2con'16](#) brought together the OW2 open source community and technology experts, software architects, IT developers, project managers and decision-makers from all around the world.

Policy Compass was presented in the context of OW2con'16 as a service very relevant to the [European Data Portal](#), the portal aiming to become the catalogue of all European public data providing them in all official languages of the European Union.

We would like to thank all of you for your interest in the Project!

Please visit our website in regular intervals, as we will keep posting interesting news and data stories, while we invite you to fully experiment with Policy Compass!

UPCOMING EVENTS

Event	Details
Open Policy Making Policy Making and Open Data Workshop!	When: 10 November 2016 Where: Berlin, Germany Website: http://www.policycompass.eu
